Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village goal is to continue the intensive schedule of cleaning and maintaining the catch basins, and in maintaining the overall stormwater conveyance system. As road projects are undertaken retrofitting of catch basins will occur. The Village is in the planning stages of constructing a new truck wash facility for DPW vehicles. Interim measures have been implemented with an outside contractor retained to provide this truck wash out service.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Village completed 37 inspections/7 cleaning of catch basins, 314 tons of recycling was collected, 72,000 dog waste bags ordered, 15,000 leaf bags ordered, 275 recycling containers were distributed, All of these items directly promotes the stormwater efforts in keeping debris out of the catch basins.

C. How many times was this observation measured or evaluated in this reporting period?

--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).
